Rochester, N.Y., May 26, 2020—The George Eastman Museum has announced it will host a virtual discussion on the film *Portrait of Jennie* (William Dieterle, 1948) on **Thursday, June 4 at 1 p.m.** with members of its Moving Image Department. The museum’s 6th Nitrate Picture Show was originally scheduled to kick off with a screening of *Portrait of Jennie* on June 4, 2020, but due to the COVID-19 pandemic, the museum made the decision to postpone the festival to June 3–6, 2021. In lieu of welcoming patrons to the Dryden Theatre next month, the museum is offering everyone a virtual experience to explore the film in a new way from home.

“For most of its running time, *Portrait of Jennie* is an eerie and unusual love story typical of the chances filmmakers were taking in 1940s black-and-white cinema. But in the last reel, it passes through three color processes (two of which were obsolete) and a change in aspect ratio that was unheard of at the time,” said Jared Case, curator of film exhibitions, George Eastman Museum. “When we initially screened David O. Selznick’s personal print of the film in 2015, we were able to re-create the Magnascope effect that was used for the original showings in New York, Boston, and Los Angeles, as the screen opens up to reveal a wider image in the final reel. Without the ability to screen it at this year’s festival, we wanted to offer patrons a chance to take a deeper dive into what makes this film so special.”

VIRTUAL: *Portrait of Jennie*: The Rarest Cinematic Experience of All Time
Thursday, June 4 at 1 p.m.

[Register via Zoom](#)

Through this free webinar, Curator of Film Exhibitions Jared Case, Preservation Manager Anthony L’Abbate, and Chief Projectionist Spencer Christiano will talk about the film, *Portrait of Jennie* (1948), its technical peculiarities, how they fit in with cinema history, and how those aspects are re-created in a modern cinema. Christiano will stream live from the Dryden Theatre projection booth to demonstrate the techniques used to exhibit the film in a manner consistent with the filmmaker’s artistic vision. With no Nitrate Picture Show this year, tune in and enjoy a behind-the-scenes look at what might have been—and will be again! [Registration is required](#) as spaces are limited.
